Colour

All colour work must follow CMYK protocols for colour separation.

Fonts

Please use PostScript Type 1 fonts only. You may substitute TrueType™ and MM fonts at your own risk. Include all fonts in your document.

Trapping

The recommended allowance for trapping is 1% of the size of your copy. For a 24-point font, for example, allow 0.24 point for trapping. For fonts smaller than 14 points, the copy must be in overprint or knockout. In colour ads, all outline or shadow-style characters created in QuarkXPress must be in knockout.
